

A THEATRICAL RIDE FOR THE SENSES FROM *CIRQUE DU SOLEIL* AT WALT DISNEY WORLD RESORT

Written and directed by Franco Dragone

Once upon a time, a door opened and two worlds collided. Dreams clashed with reality. The mundane mixed with the marvelous. It was no longer possible to tell where one world began and the other ended. This new place was called *La Nouba*.

This *Cirque du Soleil* creation is an unforgettable journey through this universe – at once threatening and exhilarating, frightening and familiar. *La Nouba* is the story of all stories, the site of all mysteries, where dreams and nightmares sleep side by side. *La Nouba* is memory, individual and universal. It beckons to us, challenges us to uncover passions we thought we had lost long ago. Here, anything is possible.

La Nouba contains two types of families or groups and throughout this theatrical ride the magic and fantasy of the colorful *Cirques* (circus people) clash with the monochromatic world of the *Urbains* (urbanites). But as in fairy tales, it is not so much this contrast as the interplay between these two groups, which sparks our curiosity and feeds our imagination.

From this encounter is born fear and ecstasy. From this encounter is born *La Nouba*.

The show title originates from the French phrase “faire la Nouba,” which means to party, to live it up. *La Nouba* transforms the ordinary into the extraordinary, engaging the imagination from beginning to end with opulent sets, brilliant choreography, theatrical lighting and live music. Featuring mesmerizing high wire and flying trapeze, stunning acro-gymnastic performances and other dynamic displays of coordination and strength, *La Nouba* promises to surprise, excite and mystify.

With an international cast of 67 artists, Cirque du Soleil welcomes more than 1,650 spectators ten times a week. The venue is located in *Downtown Disney West Side* at *Walt Disney World Resort*.

The 1,671-seat showroom is the first free-standing permanent theatre ever built for Cirque du Soleil. The dynamic white structure was designed to convey elegance and sensuality with the addition of fabric and tension reminiscent of a Big Top.
